2 PRIZES OF \$2.50 each.....5.00

2 PRIZES OF \$1.00 each.....2.00

2 PRIZES OF \$0.50 each.....1.00

BUTLER INTERVIEWED.

He Explains the Grounds Upon which he Will Endeavor to Have the Sentenced Anarchists Liberated.

Special to the Gazette.
BOSTON, Mass., May 18.—Gen. Butler has returned to Boston and in reply to questions concerning the Chicago anarchists said: "Yes, I am retained as counsel for them. As such, I have devoted considerable time to looking into the matter, and I have decided to make application for a writ of habeas corpus on the ground that the prisoners are detained without due process of law. When they were sentenced they were not in the court room. I do not believe that after custom has been established for 100 years such proceeding will be sustained. These men were sentenced without being asked: 'What have you to say why sentence should not be passed upon you?' And this is the first case known where convicted men were not given an opportunity to respond. I learned that the court records stated that the prisoners were present at the time the sentence was pronounced upon them, but such was not the case at the time. I think it was in March, 1888, a motion was made to amend the record, but it was at that time denied. This we carried to the Federal supreme court. They have hanged some of them, but the others are now in prison, placed there under a sentence which is clearly a precedent in procedure."

A DESPERATE SOLDIER.

Crazed by Whisky and an Old Grudge, a Soldier Desperately Uses A Knife.
EL PASO, T. X., May 18.—Further advices from Fort Sill conveying news of the murder of Thomas Canty at that place Friday night says that a crowd of soldiers had been drinking to excess. Three of the party stopped to rest under a tree half a mile from the post. While resting, two others returning to the post, approached. Snyder, one of the three, was the aggressor, and the two just arrived, as J. McCue and Thomas Canty. Without speaking he peered into their faces and immediately plunged a knife into McCue's left side just above the heart, but striking a rib it glanced, making an ugly flesh wound. Snyder then attacked Canty and plunged the knife to the hilt in Canty's heart, causing death instantly. The murderer walked back to his party. When he saw McCue, who had returned to where the body of Canty lay, he rushed for him to finish his work, but, discovering McCue fled and escaped. Snyder is still at large. The tragedy was evidently the outcome of an old quarrel, for several persons were hailed while passing his place of concealment and examined to see if they were the party Snyder wanted.

RAYNER.

Contract for Stonewall County's Courthouse Let—Read and Bridge Bonds.
CORRESPONDENCE OF THE GAZETTE.
RAYNER, TEX., May 18.—The contract for building a stone courthouse for Stonewall county was let yesterday to Martin, Byrnes and Johnson of Colorado City for \$24,500. Building, rooms and vaults to be fire proof, and to be finished by 15th of November next.

The wind mill purchased by our commissioners court for the well bored on our public square has arrived and the workmen have it about ready to be placed in position. The water in the 200 foot well has risen to within twenty-five feet of the surface.

The commissioners' court at its present term ordered the issuing of \$21,000 of road and bridge bonds. So you see the boom has reached Stonewall county.

New comers are on our streets daily. An enthusiastic Hog Democratic club has been organized in this place and is in working order.

AN ADVENTURIST CRANK.

A Man Imagined the End Had Come and Tried to Murder His Family.
CHICAGO, ILL., May 19.—A dispatch from Wichita, Kan., says William Thompson, who has been attending meetings held by Adventists in El Dorado, became insane yesterday and attacked his family with a butcher knife, inflicting some slight cuts on his wife and daughter before he was disarmed. He believed the end of the world had come.

Cooper.
CORRESPONDENCE OF THE GAZETTE.

Georgetown, Tex., May 16.—Since the dry weather set in the farmers are making good time in their crops. A great many have had to plant their cotton over since the rain. Crops, both corn and cotton, are backward.

The Presbyterians and Adventists are carrying on protracted meetings in town this week. Both meetings are well attended.

Hon. H. D. McDonald, candidate for governor, spoke to a good audience at the courthouse to-day. His speech was well received.

Buried at Center.
CORRESPONDENCE OF THE GAZETTE.

CENTER, TEX., May 17.—A very sad and fatal accident occurred near here day before yesterday evening. D. M. Short, Jr., a worthy young man of this place, was killed, while traveling the road to San Augustine, by a falling tree. He was buried here to-day with military honors by the Shelby Rifles, of which organization he was a member.

A Fatal Saloon Row.
ST. LOUIS, Mo., May 19.—Richard McHale, a laborer living at 1604 Hogan street, was shot and killed at a late hour last night by Herman H. Holtkamp at the latter's saloon, 1544 Hogan street. The men quarreled because Holtkamp would not credit McHale's wife for beer, and the shooting and death were the result. Holtkamp claims to have acted in self defense.

A Decided Success.
BALTIMORE, Md., May 19.—The National conference of charities and correction, Mr. Byers president, has been a decided success, both in numbers, in attendance and character of papers read, and from all appearances the society will be continued.

Dies at Bryan.
CORRESPONDENCE OF THE GAZETTE.

BRYAN, TEX., May 17.—B. H. Calhoun, of the firm of Carson, Sewell & Co.,

Houston, died at his home in this city this afternoon with inflammation of the bowels, having been ill only a few days. His death has been the occasion of much grief, both on the account of his young age and his genial manner. He was the son-in-law of Dr. John H. W. of this city.

Stanton's "Red-Ache."
A case of "Red-Ache," a very painful and distressing headache, was cured by Stanton's "Red-Ache."

Full cream cheese, made by hand at the Fort Worth Cheese Co.'s.

INHUMAN TREATMENT.

Two Boys Arrested for Frightfully Mistreating a Ten-Year-Old Lad.

MANCHESTER, N. H., May 19.—Ludie Daniels, aged twelve, and Alex Anderson, aged seventeen, were arrested last night on complaint of the mother of Charles B. Howe, a ten-year-old lad, charging them with acts rivaling those perpetrated by Jesse Pomeroy. It is alleged that the boys took him in an out-house, stuck pins into nearly every part of his anatomy, poured boiling water upon him, burned his face with powder and after vainly endeavoring to push him into a vault, left him insensible, and he was afterwards found unconscious.

A TRIP TO OLD MEXICO.

Frequently Made for One Dollar.
It is surprising how little is known of our sister Republic by the residents of the United States, although it is easily reached by water or rail. The large percentage of Americans seem to satisfy themselves with the thought that Mexico is only a narrow strip attached to our country, and compare it with the rest of the world, instead of knowing that it contains twenty-seven large States and 10,000,000 people.

Those desiring to study a different race of people, enjoy picturesque scenery, and visit entirely different customs, and more novel sights than ever dreamed of, should visit Mexico. Many lucky investors in the Loteria de la Beneficencia Publica have been enabled to take this delightful trip by sending \$1. or upward to Juan Piedad, Manager, Apartado 43, Zacatecas, Mexico. Distributions on the 27th day of each month. Zacatecas is the mining city of the republic, and has a population of 75,000. It is located between El Paso and Mexico City, at an altitude of 5100 feet.

Sent in an order for a box of snow flakes or bonfire money biscuits at the Fort Worth Grocer Co.

Defended Her Honor.

NEW YORK, May 19.—Rosanna Rosita, wife of an Italian dock laborer, stabbed to the heart here this morning one Mil-liee L. Gindus, who had been a boarder at her house, in defense of her wife's honor. The tragedy occurred on the top floor of a five-story tenement, No. 18 Monroe street. The boarder lies mortally wounded at Governor's hospital, and his death is only a question of a few hours.

All danger of the leakage of water avoided by adding 25 drops of the genuine Angostura Bitters, made by Dr. Siegert & Sons.

Angostura Bitters is the latest discovery of a most talented child, and is sold by the Fort Worth Grocer Co. and N. B. Grand.

Iron-Tone quinine is better than any other quinine. Field & Abby's only.

Fort Davis.

CORRESPONDENCE OF THE GAZETTE.
FORT DAVIS, TEX., May 16.—Four companies of the Twenty-third United States Infantry arrived here yesterday. These add greatly to the population of our town.

A copious rain fell this morning which was very much needed, as the rains that fell about two weeks ago had about dried up and stock was beginning to suffer a little.

The surveyor for this county started yesterday to inspect the survey of El Paso county, the survey line between Jeff Davis and El Paso counties. A disagreement is anticipated.

Perfection in the Official Limb.
The Pittsburgh (Pa.) Artistic Limb Company, of 908 Ninth avenue, is the first winning fame of a popular and meritorious. For lightness, compactness and ability their artificial limbs are unequalled.

Every member of our club should know the wonders of art. They know by experience what is needed and how to be constructed, and by constantly improving defects they have arrived at a high state of perfection. Their price is reasonable for the superior workmanship. Dr. J. V. Thompson is the manager of this company, and has had a long, practical experience in this line.

The Queen Bee is the best for the money to be had, and you order to Fort Worth Grocer Co.

Since the passage by congress of a bill granting private capital the right to deepen Annapolis Pass, Southwest Texas, on the H. of the Arkansas Pacific railway, is attracting more attention than any other part of our state. The fine grapes, fruit and early vegetables now being shipped from that section is the best advertisement that any country could have. It is only a question of a few years when this country will be justly and appropriately termed the "garden spot of Texas." The Missouri, Kansas and Texas railway to accommodate the large number of Spring Palace visitors who wish to visit that section will sell excursion tickets May 21 at one half fare for the round trip.

Father and Children Drowned.
OMAHA, NEB., May 19.—A farmer named Tucker, with his two children, a girl and a boy, was rowing on a small lake near Stanton Saturday night, when the boat was overturned and the three were drowned. The bodies were recovered.

A sore leg, the flesh a mass of disease, yet P. P. P. cured it.

The best and cheapest lot in the city; only \$250. Easy terms. E. 6th st. F. W. Tinsley.

I have the best and cheapest lot in the city; only \$250. Easy terms. E. 6th st. F. W. Tinsley.

Lavarnie and Cone, by special request, will give their grand national drawing the Eight Hour at Andrews' Grand Theater to-morrow.

Ice cold, jellied and healthful Iron-Tone at Fort Abby's only.

A HORRIBLE DEATH.

A Man Gradually Stalks to Death in Quicksand While His Friends are Exerting Every Effort to Rescue Him.

WOODSIDE, L. I., May 18.—James S. Parcells, who was night dispatcher in the New York postoffice, met a terrible death Saturday evening in this village. Parcells recently built a house at Woodside for himself and family and had driven a well in the yard from which the water supply for the house was obtained. In order to secure a greater force of water Parcells decided to add a section of pipe to that through which the water was drawn from the ground. About 4 o'clock Saturday afternoon he began to dig a hole around the well pipe. He dug down about fifteen feet and was near the end of the pipe when he felt himself sinking and at once started to his son, who was above, to throw a rope to him. He had struck quicksand, and before a rope could be thrown to him he was down to his waist in sand. His son quickly called help and in a few minutes half the male population of the town was on the spot. A rope was finally thrown down to the sinking man who placed it around his body but all efforts of those about to pull him out were unavailing and he gradually sank until his head only could be seen. A long rush tube was inserted in Parcells' mouth through which air was pumped to keep him alive while the men were digging around him, but after five hours of suffering the unfortunate man died from exhaustion. Some of the men who were digging came near sinking into the quicksand and meeting a similar fate. Parcells leaves a wife and a large family.

A Wonder Worker.

Mr. Frank Huffman, a young man of Burlington, Ohio, states that he had been under the care of prominent physicians, and used their treatment until he was not able to get around. He produced his case to be Consumption, and at that time was not able to walk without resting. He found, however, that he used half a dollar bottle, and that it was not long before he was able to walk without resting. He found, however, that he used half a dollar bottle, and that it was not long before he was able to walk without resting. He found, however, that he used half a dollar bottle, and that it was not long before he was able to walk without resting.

What a Few Prominent People Have to Say of Laredo.

Laredo Times.

General Wm. G. Dacy of New York says of Laredo: "It is an infant wonder, far ahead of anything I have seen since I left home. I have read about your town, but supposed it was all a blow."

You have the foundation for a big and prosperous city, which I can see you are sure to have in a few years. Come to New York with some of your enterprises needing capital and we will gladly put money into Laredo."

Mr. J. S. Alexander of San Antonio, last evening: "I thought you boomers had talked too much about Laredo's investments, but after seeing the town and seeing you have not talked enough. Everything that you have accomplished has been in a short time. Laredo is most certainly a surprise. The Heights are equal to the rest of the town, and the city is not superior to any other city around San Antonio."

Mr. C. C. Morgan of San Antonio, last evening: "I have seen the first time in two years. Well, I have nothing to say. The city is a day's ride, the heights a wonder and Laredo how far advanced to the checkerboard her progress is moving."

Mr. W. H. Stevenson, a St. Louis capitalist, who visited Laredo for the first time about two years ago, says now: "I did not believe the newspaper reports, or I would have made heavy investments in inside property. I supposed it was all a Kansas wind boom. Laredo has accomplished more in less time than any town I know of in the Southwest."

Mr. A. W. Gifford, Laredo's first friend, says: "She will be the first city in Texas to boast of 100,000 population. The people of the United States have not yet waked up to a realization of Laredo's true position, and when they do they will come in by the thousands, bringing endless quantities of enterprise and capital, that will make it a city on short notice."

LAREDO.

The Gateway to and From Mexico!

If You Are Coming to Texas or Mexico This Year,

STOP AT LAREDO!

FIRST—Because we have just completed an elegant hotel, with all modern conveniences, and can take good care of you.

SECOND—Because you will see a city of 12,000 souls, that has quadrupled its population in the last three years and promises even more rapid growth in the future.

THIRD—Because you will see the commercial, railroad and manufacturing center of Southwest Texas and Northern Mexico, a vast territory of unlimited resources.

FOURTH—Because the Laredo route to the City of Mexico presents the grandest scenery, passes through the most fertile country, is the most populous, has the best accommodations, and is the shortest by many hundred miles between the trade centers of the United States and Mexico.

FIFTH—Because you will see a great commercial and manufacturing city springing up on the ruins of an old town founded by the Spanish government in 1767—see a strange blending of the old and new, affording interest not only to the land buyer and speculator, but also to the tourist and general traveler.

SIXTH—Because from the "Heights," the beautiful residence portion of Laredo, may be seen for hundreds of miles the sinuous course of the Rio Grande, the broad and silvery line of demarcation between two great Republics; and from which are also brought within the scope of the vision, 100 miles distant in Mexico, the rugged peaks of the majestic Sierra Madre Mountains.

SEVENTH—Because you will be 600 feet above the level of the sea, and 150 miles from the Gulf of Mexico, where balmy and continuous breezes temper our winters and cool our summers.

EIGHTH—Because you will see the two Laredos, an American city of 12,000, and a Mexican city of 8,000 people, upon opposite shores of the Rio Grande, lighted by electricity, connected by two magnificent steel bridges and an electric motor line, the latter being one of the finest equipped, most popular and ONLY international Electric Railway in the country.

NINTH—Because you will be in a country noted for its healthfulness, where malaria and fevers are unknown and in the midst of a hospitable and progressive people.

TENTH—Because you will be in a city where law and order prevail, where you will find churches of all denominations, and splendid public and private educational institutions.

ELEVENTH—Because you will find no place offering better opportunities for the investment of money, either in real estate, business or manufacturing enterprises.

TWELFTH—Because Laredo is in the middle of the largest wool-producing section in the United States; possesses the largest and best veins of coal mined in the State of Texas, and is adjacent to the great mineral deposits in Mexico, containing the best quality of lead, silver, iron and copper ores, which are shipped to Laredo for treatment, and which find in this city the best market in the United States.

THIRTEENTH—Because Laredo is in the center, and is the natural metropolis of Southwest Texas, which was awarded the first premium by the Commission of the Department of Agriculture, at the National Exposition, held at Kansas City, Mo., in October, 1888, for the best State exhibit, embracing products of the soil and other resources illustrative of the wealth of the State of Texas.

FOURTEENTH—Because Laredo brick, fine manufacture, is a minimum cost class of brick that has no superior and few equals. They Laredo brick is celebrated for its durability, is a very superior excellent properties; is specified in all contracts for government buildings in the State of Texas, and is shipped in large quantities to all parts of the country where first-class building material is required. Thus have the fortunate citizens of Laredo at their very doors one of the greatest essentials for the building up of a substantial and ornamental city.

FIFTEENTH—Because the City of Laredo owns hundreds of acres of valuable lands which she offers as bonus to individuals of companies establishing desirable manufacturing enterprises within its corporate limits, and is blessed with an overflowing treasury, making the rate of taxation and taxable value of property merely nominal.

SIXTEENTH—Because in Laredo you will see more and better buildings in course of construction than in any other city of its size in the United States, among them being a large tannery, a tannery, a boot and shoe factory, a planing mill, a grist mill, a woolen mill, an elegant Masonic temple and many fine and commodious business blocks and beautiful residences.

SEVENTEENTH—Because the cost of living in Laredo is as cheap as elsewhere in the United States.

EIGHTEENTH—Because every product of the soil that can be profitably raised in the United States can also, with equal profit, be raised in Texas; and whatever can be grown profitably in Texas can be grown with greater profit in "Southwest Texas," of which Laredo
